## Accessibility Plan

<b>Date of Review</b>	November 2025
<b>Date approved by Headteacher</b>	November 2025
<b>Date of next Review</b>	Summer term 2027

## 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities, and services provided
- Improve the availability of accessible information to disabled pupils

The Trust aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Our school values are to Nurture, Enrich and Inspire. We aim to be as inclusive as possible within the physical remit of the building.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

## 3. Purpose

The plan sets out proposals to increase access to education for disabled pupils in the 3 areas required areas as stated in the planning duties in the act:

- Increase the extent to which disabled pupils can participate in the school curriculum
- Improve access to the physical environment of the school
- Improve the delivery of the information

The Trust also recognises its responsibility towards disabled staff and will:

- Monitor recruitment procedures to ensure that all people with disability are given equal opportunities
- Ensure that staff with disabilities are supported with special provision to ensure that they can work effectively
- Where necessary, make reasonable adjustment to enable staff to fully access the workplace.

## 4. Overall Strategy

We aim over time to increase the accessibility of provision for all students, staff and visitors including those with disabilities. Our strategies include:

- setting admission criteria which does not discriminate against students with disabilities or treat them unfairly
- having high expectations of all students be they disabled or able bodied
- finding ways in which all students can take part in the full curriculum including sport, music, and other co-curricular activities
- planning out-of-school activities including all school trips so that students with disabilities can participate
- devising teaching strategies which will remove barriers to learning and participation for students with disabilities
- planning the improvement and the modification of the physical environment of the school to cater for the needs of students with disabilities as resources allow
- raising awareness of disability amongst all school staff
- providing written information for students with disabilities in a form which is user friendly
- using language which does not offend in all literature and making staff and students aware of the importance of such language

It is important that regular monitoring occurs to ensure that pupils with disabilities are not being disadvantaged and that this will lead to action planning.

### Strategy 1

Increasing the extent to which disabled pupils can participate in the school curriculum, it is our aim to:

1. Audit pupils, who require learning support, during the transition process to assess the differentiated resources available to them.
  - Provide training to all staff on the importance of the scaffolding of the curriculum and its delivery within the classroom.
  - All departments to ensure that schemes of work have clear scaffolding included
  - SENDCo to work closely with Heads of Department and teachers to ensure that all lessons are accessible to all pupils
  - Teaching staff to liaise with SENDCo and Learning Support Assistants (LSAs) prior to lessons so that support is fully utilised.
2. Ensure equal access for disabled pupils to co-curricular activities and school visits.
  - Risk assessment and planning of trips to include accessibility references

- Track enrichment activities to ensure inclusion of pupils with disability and on the SEND List and those who have an Education Health and Care Plan

3. Ensure that all pupils feel supported and included within the school.

## **Strategy 2**

Improving access to the physical environment of the school.

This is to enhance the extent to which disabled pupils can take advantage of the educational opportunities within the school.

It is our aim to enhance physical access and improve accessibility where possible in the context of the above statement.

We will carry out an biannual access audit to inform improvement of the physical environment of the school.

We will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, to include improved access, lighting, acoustic enhancement and colour schemes and more accessible facilities and fittings.

We aim to improve the following over time within constraints on resources:

1. Access to/from the school:
  - Provide more designated disabled parking spaces
  - Install ramps next to existing steps where appropriate to improve pedestrian and wheelchair access
2. Lighting
  - Provide adequate lighting in all areas of the school environment
3. Toilets
  - To have sufficient disabled toilets available along with appropriate hand washing facilities.

## **Strategy 3**

Improving the delivery of information (to disabled pupils and parents). We aim to:

- Provide written materials in alternative formats as requested, for example we can provide large print copies of appropriate school documents if requested, as communicated at the start of any pupil's attendance at the school.

## 5. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
